

Reem Ashraf Amin

Full-Stack Developer

+201090738742 ◇ reemashraff7@gmail.com ◇ Cairo, Egypt ◇ [LinkedIn](#) ◇ [GitHub](#) ◇ [Portfolio](#)

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building web applications using React.js, Angular, Laravel/PHP, and MySQL. Developed 3 full-stack applications and 10+ RESTful API endpoints, with experience in authentication, role-based authorization, database integration, and frontend-backend integration. Experienced in delivering client-facing websites from requirements gathering through deployment and post-launch maintenance.

EXPERIENCE

Freelance Full-Stack Developer

Bonian Nabil

Jun 2026 — Present

- Delivered a 6-page responsive corporate website using React.js and Bootstrap CSS based on client requirements.
- Managed hosting and provided ongoing post-launch maintenance.
- Collaborated directly with the client to implement requested UI, content, and functionality updates.
- Live Website: www.boniannabil.com

Full-Stack Developer Intern

Petra Software | Wazeefa Tech Initiative

Mar 2024 — Jul 2024

- Constructed 3 full-stack applications using Angular, Laravel/PHP, and MySQL.
- Engineered +10 RESTful API endpoints to handle core application logic and ensure seamless data exchange.
- Implemented secure authentication and role-based authorization for 2 distinct user types.
- Contributed to full-stack projects under the guidance of senior engineers, implementing core features and integrations.

SKILLS

Frontend Angular, React.js, Redux, Axios, HTML5, CSS3, JavaScript (ES6+), TypeScript, Bootstrap, jQuery, Responsive Web Design, Single Page Application (SPA), React Router

Backend Laravel, PHP, MySQL, RESTful APIs, Authentication & Authorization, CRUD Operations

Tools Version Control (Git), GitHub, Postman

Languages Arabic, English

PROJECTS

Furniture Store Website | [React.js](#), [Laravel](#), [Redux](#), [MySQL](#) [Link](#)

- Built a full-stack furniture ordering web application with admin dashboard for managing products, orders, and users.
- Implemented real-time order tracking with live location updates, enhancing customer experience.
- Integrating secure login system with role-specific permissions for 3 user roles: customers, admins, and drivers.

Bike Rental Website | [Angular](#), [Laravel](#), [MySQL](#) [Link](#)

- Constructed a bike rental platform with a user-facing interface and an admin dashboard.
- Implemented a role-based access control system supporting 2 user roles.
- Integrated Laravel-based RESTful APIs with an Angular frontend to enable dynamic user interactions.
- Secured application transactions by integrating token-based authentication and authorization protocols.
- Designed the database schema for rentals and user management.

Green Store Website | [Angular](#), [PHP](#), [MySQL](#) [Link](#)

- Created an adaptive e-commerce platform with product listings and admin dashboard.
- Built backend functionality in PHP, including full CRUD operations.
- Integrated Angular frontend with backend APIs for interactive operations.

EDUCATION

Master in Computer Science, Sohag University

Apr 2025 — Present

Bachelor of Computers and Information in Bioinformatics, Assiut University (GPA: 3.65 / 4.0) Sep 2019 — Jul 2023

COURSES

Building Web Applications using PHP & MYSQL, Mahara Tech.

React.js, Mahara Tech.

Introduction To Web Technologies, Information Technology Institute (ITI).
